With a focus on empowering women to make informed health decisions, our department is committed to nurturing physical, emotional, and reproductive well-being through cutting-edge treatments and a patient-centric approach.

"Nurturing life's beginning and safeguarding women's well-being with unwavering expertise and compassionate care."

Services

- Prenatal care
- Childbirth support
- Gynecological exams
- Family planning
- Pap smears
- Cervical Cancer Screening
- HPV vaccinations

Our Growth Journey

The Facility was established in 1916 during the colonial period as a center for treating injured soldiers during World War I.

In November 2007, we achieved a significant milestone when we were upgraded to Level 5 status, a testament to our commitment to providing comprehensive healthcare services to our community. Subsequently, in 2014, through The Kisii Teaching and Referral Hospital Act, we attained the esteemed status of a Teaching and Referral Hospital.

Our Vision

Envisioning a future marked by unparalleled excellence, KTRH is poised to ascend as the leading center for healthcare services within the Western Kenya region.

Opportunities for Investment and Partnership

- > Equipping of the Mother and Child Hospital
- > Operationalization of the Doctors 'Plaza
- > Equipping of the Oncology Unit
- > Expansion of the oxygen plant
- > Establishment of a Call Centre
- > Establishment of a Water Treatment Plant
- > Setting up of a Pharmaceutical Industrial Park

Disruptive Concepts for Financial Sustainability

Open for partnership

School-based Health Program

- > Acquisition of more mobile clinics to complement the Beyond Zero Clinic
- > Production of educative material- booklets for topical issues and quarterly newsletter
- > WASH activities in schools
- > Mentorship programs- guidance and counselling programs in schools

Patient Support Program

- > Donations to aid financial assistance for the most vulnerable.
- > Contributions to the hospital waiver kitty
- > Support in social integration programs
- > Contribution toward home-based care programs

Climate Resilient Initiative

In compliance with climate resilience requirements, the KTRH invested in an eco-friendly medical waste shredder machine.

We are seeking an investor to partner with in Value Addition of the by-products of the microwaved/shredded waste.

Cancer Care and Treatment Centre

The Cancer Care and Treatment Centre Project is being implemented by the Government of Kenya (GOK) in collaboration with the County Government of Kisii. It is funded by the Government of Kenya, the Arab Bank for Economic Development in Africa (BADEA) and Saudi Fund for Development (SFD).

Once operational, the Centre will boost early detection of the disease and reduce the cost incurred by patients to travel to Kenyatta National Hospital and even abroad in search of cancer care services.

The Cancer Centre will serve the Southwestern region whose total population is about 10 million people.
